👤 About me

I am a machine learner and a cyber-security driven individual who thrives to combine both the aspects of ML and the security sectors .
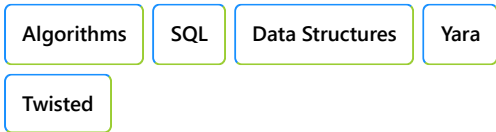

🎯 Career Objective

Eager to expand my skill set through various Real life applications and to expand my contact and connect with more individuals as well as to apply my knowledge in the real market .
✖ Technical Expertise

C++

Bash

Python

NIST

HIPAA

✔ Skills / Exposure

Algorithms   SQL   Data Structures   Yara

Twisted

🔧 Tools

Git   VS Code   Ghidra   Maltego   Suricata

🏛 Education

BE, Computer Engineering   2024 - 2029
Tribhuvan University
Secured:

High School, Science   2021 - 2023
Times International College
Secured: **3.75 GPA**

🔑 Key Projects / Involvements

- LMS -1st semester C project. Collaborated with my teammates for effective and optimum modulation of the project fulfilling role of framework Engineer
- Guess word game - Personal bash project. Enhanced word selection algorithm for efficiency and fairness, ensuring random and unbiased word choices.
- Bash Tic-Tac-Toe Game - Personal bash project. Demonstrated proficiency in Bash scripting, array manipulation, and algorithmic problem-solving.
